What is SEPAC?

SEPAC is a group of parent volunteers that are committed to helping families access educational, community, and family supports and work together to support their special education students. SEPAC works collaboratively with Special Education Directors and school representatives to provide a voice for families and a system of support and teamwork.

Community

SEPAC is a means to connect families to share resources, seek advice, express concerns, share success stories, and support their children to lead rich and meaningful lives.

Join Us:

The communities of Swansea, Somerset, Dighton-Rehoboth, and Berkley invite you to join your local Special Education Directors as we come together to develop a regional SEPAC. We want to bring our communities together to support each other and work together as neighboring communities to provide resources and a supportive network to all of our families and students!
